ERRATA SHEET

CHANGES TO THE REVISED INTEGRATED WATERSHED MONITORING PROGRAM AND QUALITY ASSURANCE PROGRAM PLAN

Waste Discharge Requirements for Areawide Urban Storm Water Runoff For

The San Bernardino County Flood Control District, County of San Bernardino and the Incorporated Cities of San Bernardino County within the Santa Ana Region Order No. R8-2010-0036

(Language deleted is struck through) (Language added is **bold and shaded**)

1. Modify the last paragraph on page 6 of the revised Integrated Watershed Monitoring Program, as follows:

Core Monitoring will include both permanent and rotating sites as discussed in Section 2 and, which will be discussed in greater detail below. Rotating sites will be organized by the SBCFCD Zones (Figure 1), such that one Zone is sampled at a time for a period of 1 to 3 years the same duration as described in Section 2 (i.e., zone 1 – first two years, zone 2 – 3rd and 4th years, zone 3 – 5th year). Zones 1, 2, and 3 will be addressed on a rotating basis. By focusing on one Zone at a time, the Principal Permittee can collect data at a greater spatial detail and that pairs receiving water and urban discharge samples. This type of sample design provides for data collection that leads to improvement of the stormwater management program and pollutant assessment and achieves the goals of the MRP, while maintaining cost effectiveness and economic feasibility.

2. Modify section 4 to 7 (page 15 to 20) of the revised Integrated Watershed Monitoring Program, as follows:

[Add appropriate numbering to the headings for section 4 to 7 and correct typographical issue with subheading numbering.]

3. Modify Table 10 on page 22 of the revised Integrated Watershed Monitoring Program, as follows:

WW-S3 4 Santa Ana River Reach 3 @ Hamner Pedley Avenue

4. Modify the third paragraph on page 26 of the revised Integrated Watershed, as follows:

Table 13 presents and an overview of the Watershed-Wide Monitoring Plan. This plan is applicable until December 31, 2012, following which it may be revised.

5. Modify section A on page 1 of the revised Quality Assurance Program Plan, as follows:

Dan Ilkay Pavlova Vitale, San Bernardino County Stormwater Program Manager

6. Modify the table on page 4 of the revised Quality Assurance Program Plan, as follows:

Dan Ilkay Pavlova Vitale SBCFCD 909-387-8119 dilkay@dpw.sbcounty.gov pavlova.vitale@dpw.sbcounty.gov

7. Modify the first bullet point on page 4 of the revised Quality Assurance Program Plan, as follows:

Project Manager: Dan Ilkay Pavlova Vitale, San Bernardino County Stormwater Program Manager

8. Modify Figure 1 on page 5 of the revised Quality Assurance Program Plan, as follows:

Project Manager Dan Ilkay Pavlova Vitale

9. Modify the last paragraph on page 25 of the revised Quality Assurance Program Plan, as follows:

Sampling schedules vary depending on the type of monitoring required to meet the monitoring objectives. The sampling frequencies are such that sufficient data will be produced to adequately meet the monitoring objectives. Core Monitoring frequency for both Permanent and Rotating monitoring stations is presented in Table 9 8.
